IAOP's Global Chapter Network

IAOP chapters provide a forum for members to collectively focus on professional development, networking, and the advancement of outsourcing within specific areas of common interest. Each chapter is led by chairs and co-chairs with deep knowledge in the area covered. Since IAOP members are members of the association, and not of a specific chapter, they are encouraged to participate in as many chapters and chapter meetings as they wish.

Use the Chapter Calendar link above for a list of upcoming chapter meetings, or use the list below to see what's going on in each of IAOP's chapters.

[Click here](#) if you'd like to be notified of a chapter's next meeting.

IAOP also offers complimentary [Associate Membership](#) which allows you to attend a chapter meeting as our guest and access select online resources. Create your Associate Membership now and then register online for the chapter meeting of your choice. We're sure that once you learn more about IAOP you'll want to upgrade to a full Professional Membership. Or gain full access right now, by becoming a [Professional Member](#) today!

Upcoming Chapter Meeting Calendar

Earn 1 Continuing Education Hour towards COP recertification for each meeting you attend...COPs register now.

Chapter Leadership

Leading an IAOP Chapter, a benefit of IAOP Corporate Membership, establishes an organization and its professionals as experts on the specific outsourcing topic, industry or geography area of the chapter and is a powerful tool for thought-leadership, and professional and business development.

For more information on starting a chapter, email sales@iaop.org.
